PRESS RELEASE

Governor lays foundation stone for Water Treatment Plant

The Governor of Arunachal Pradesh Brig. (Dr.) B.D. Mishra (Retd.) has conveyed his best wishes on the foundation stone laying of 6.6 lakh litres per day capacity potable Water Treatment Plant at Raga Town. When completed this plant will cater for the entire population of Raga Township, which will be a great boon for the people of the area.

The Governor was scheduled to lay the foundation of the Water Treatment Plant at Yada, Raga, in Kamle District on 26th February 2019. However, due to the necessities of situation for his presence at Itanagar, the Governor conveyed his good wishes to the people of Raga and requested them to move ahead with the foundation laying and start the work on the Water Treatment Plant.

The Governor also conveyed his best wishes to the officials involved in the construction of the plant, who would be progressing the work with full transparency honesty and accountability.

The Governor also conveyed his greetings and felicitation to the people of Raga on the occasion of Silver Jubilee Nyokum Yullo festival, which he was very keen to attend and participate in with the residents of Raga.

The Governor assured the people of Raga of his early visit to see for himself the progress being made on the construction of the Water Treatment Plant as also to meet the people of Raga. The Governor conveyed his best wishes to the people of Raga for their peace and progress.

PRO to Governor
Arunachal Pradesh
