Governor visits Panyor Lower Hydro Power Station

Governor commends the NEEPCO officials for efficient power production and maintenance of the Power Station

Governor appreciates the NEEPCO officials for reaching out to the local people in the vicinity of the Plant through Corporate Social Responsibility

The Governor of Arunachal Pradesh Lt. General KT Parnaik, PVSM, UYSM, YSM (Retd.) visited the Panyor Lower Hydro Power Station (PLHPS), Yazali on 10th May 2023. He interacted with senior officials of the Plant and reviewed the whole project, which is second largest hydro power station of North Eastern Electric Power Corporation Ltd. (NEEPCO) in the State and in North Eastern Region.

The Governor commended the NEEPCO officials for efficient power production and maintenance of the Power Station. He advised them to work with dedication and sincerity as their efforts are contributing towards nation building.

The Head of Plant of PLHP Station Shri Partha Das briefed the Governor that Panyor Lower Hydro Power Station, Yazali has installed capacity of 405 megawatts. He said that in the financial year 2022-23, the Plant has generated 1376.279 MU against the design energy of 1293.73 MU.

The officials shared the issue of siltation in the Panyor Lower Hydro Power Station, Yazali, which may reduce the power production in the future.

The Head of Plant informed about the benefits extended to local people under Corporate Social Responsibility & Sustainability (CSR&S). The Governor appreciated the officials for reaching out to the local people in the vicinity of the Plant through Corporate Social Responsibility.

Later the Governor and the First Lady of the State participated in a plantation programme, organized to commemorate their visit to the Plant. They planted sapling of Araucaria Columnaris.

PRO to Governor
Arunachal Pradesh
